Mr. Knight telephoned to report that Aramco had just received a telegram, dated May 19, from the company in Dhahran regarding the hospitalization of King Saud. According to this message, Saud himself requested admission to the Aramco hospital on May 17. The Aramco doctors believe that there is nothing to suggest that there is anything serious in the King's condition, and their examinations so far have revealed no serious ailment.

It is contemplated that the King will remain in the hospital for approximately one week.
